

What are we supposed to do?

Challenge: Build a house for a plant that provides the necessities for survival and growth.

1

Check out the **Terrarium Tracking** pages in your **Event Guide**. Get your deli container and go to the **Planting Station**.
NOTE: 1 container per family.

2

1. Fill the bottom of your container with **1 cup** of soil.
2. Sprinkle **1 tablespoon** of grass seed on top of the soil.
3. Use the spray bottle to generously wet the seeds and soil.
4. Tape the paper ruler to the side of the container. Be sure to place “0” inches at the surface of the soil.
5. Place your lid on the container to seal your terrarium.

3

Check out your **Event Guide** for further details on making predictions and collecting data on the growth of your seeds.
